

## **SECURE GROUP FORMS A NEW RESELLER AGREEMENT WITH ESTEEM WIRELESS MODEMS**

Secure Group, a Canadian network protection company based out of Calgary Alberta, has formed a new reseller agreement with ESTeem Wireless Modems (ESTeem) in Kennewick, Washington. Esteem is the leading manufacturer and patent holder of wireless modems for over 20 years. Their modems are being used for both civilian and federal applications including U.S. Government, Army, Navy and Air Force.

ESTeem has expanded its valued line of modems to include Mobile Data Computer Systems (MDC). ESTeem recognized the need for public safety officials, remote industrial controllers and federal defensive agency to be able to communicate safely, securely and consistently in remote areas with out connecting data cables. ESTeem's MDC System offers every organization whether corporate or federal consistent access to information in a cost effective manner with superior data rates, technical features and expandability.

Secure Group realized that their corporate, Public Safety and Federal clients required access to the latest in wireless technology and therefore formed a reseller relationship with ESTeem. "Our corporate goal is to provide our clients with the most up-to-date, best in class technology. ESTeem fits our criteria perfectly; they provide an innovative, superior product in a very cost effective manner. It is the best of both worlds – superior and affordable," states, Brad Prather, President of Secure Group. "If the U.S. Government feels safe and secure using ESTeem's modems, we feel more than confident offering these products and services to our network protection clients."
